This beautifully presented home features a stunning black granite topped kitchen with stainless steel appliances, open plan dining and family room, another separate living area and a large master bedroom parents retreat with a large ensuite. On the other side of the home, there is an additional 3 good size bedrooms all with sweeping views of the surrounding farmland and valley, family bathroom with spa, and separate laundry with external access. Externally, there is a large covered front porch and a rear north facing sundeck off the dining area as well as a good sized double garage/workshop, a garden shed, and even a cute tree house for the kids.
